“Expert Talk on Lean Start-up & Minimum Viable Product/Business”

MIET Institution Innovation Council organised a seminar that was delivered by the Innovation Ambassador for the students of Institute on the theme “Lean Start-up & Minimum Viable Product/Business”. The agenda was to familiarize the students with methodology called the “lean start-up,” that favours experimentation over-elaborate planning, customer feedback over intuition, and iterative design over traditional “big design up front” development. This session was attended by 36 students on 31th of August, 2022.

The deeply engaging session was steered by Innovation Ambassador, Mr Karan Khajuria, Assistant Professor (CSE) who highlighted various aspects of Lean Start-ups. He discussed the various principles of lean start up along with myths that are associated with it. He also apprised the students with the facts about why some ideas work out only for a few and not others. The enthralled audience asked various questions from the speaker. The key speaker resolved all the questions asked during the session.

The session was coordinated by Ms. Shafalika Vijayal, Assistant Professor and Student level coordination was done by Dr Bhagyalakshmi, Assistant Professor Computer Science Engineering Department. The session was highly informative and appreciated by all. The deeply engaging session was steered by following Innovation Ambassadors:
