“Exposure and Field Visit for Problem Identification”

The Electronics and Communication Department in collaboration with **Institute Innovation Council (IIC) MIET** had organized an **Exposure and Field Visit for Problem Identification** as per IIC Calendar activity. The students visited Amb village on 28th February 2022 and interacted with locals to identify and enquire about the problems that they were facing in their day to day life. Students carefully recorded the response of the locals. Students also studied the topography of the village.

Number of students: 24 Number of Faculties: 02

Following activities were conducted during/post visit to Amb village:

1. Interaction with stakeholders to identify real life problems.
2. Observe a place and to identify the issues
3. Feel the basic requirement of the people living in the village.
4. To think on innovative solutions to the problems identified.
5. Prepare the problem statement for the problems identified

Students have come up with three problem statements after brain storming activity. Students will further work on problem solution.
